

Check out our website -- something for about everyone

USD 435's website has had an update. It began last spring with suggestions from a group of patrons to give our site a uniform and updated appearance. Our technology team, under the direction of Mike Liby, used an orange and brown theme throughout, and has added a variety of interactive features.

Click on <http://www.abileneschools.org> and you can find a monthly district-wide calendar, inclement weather information, and a current slide show showing what is happening in our schools. You can even sign up for my newsletters, which will then be automatically delivered to your email mailbox each week.

To access the various schools in our district, simply go to the "Schools" tab at the top of the page and then click on the school of your choice. For example, on the Abilene High School page you can view their 2014-15 curriculum guide, check out ebooks from the Media Center, participate in their latest web poll, or read the daily announcements. It also includes a Power School link—a web-based student information system that provides grade management and viewing for teachers and students alike.

Looking for additional information about our facilities needs? Click on the "Abilene Facilities" tab and read about the upcoming bond issue.

If you want to find out more about Parents as Teachers or ABC, our before or after school programs—click on the "District" tab at the top of the page. Under the "Board of Education" tab you'll find meeting agendas and minutes. The "Information" tab includes a variety of sub-page titles such as: Experience Abilene Public Schools, Military Information, Adult Education, Job Listing, Nurse Information, Forms and Handbook. We even have an "About Abilene" tab with links to important city resources.

Mike and his team, working in conjunction with our district staff, continually update our site and we invite you to check it out—there's something for about everyone.
